OBJECTIVE

Motivated fresher and Full Stack Developer with hands-on experience in React, REST APIs, and database management. Eager to contribute to an Agile development team by building and supporting web applications, integrating third-party APIs, and learning PHP, AngularJS, and accounting principles to deliver customer-focused solutions.

EXPERIENCE

Frontend Developer Intern

Dec 2025 – Apr 2025

Sachitech | Nashik, Maharashtra

- Built and improved web applications using React, JavaScript, and REST APIs, following structured development workflows similar to Agile methodology.
- Actively gathered requirements and collaborated with the development team to design, develop, test, and deliver features for a responsive online grocery shopping platform.
- Integrated third-party REST APIs and connected a MERN backend (Node.js, Express, MongoDB) for product management, user carts, and order workflows.

PROJECTS

React Admin Dashboard | *React, Docker*

- Developed a full-stack web application with Flask REST API backend and React frontend, demonstrating experience in both server-side and client-side development.
- Implemented GitHub OAuth (third-party API integration) to fetch and visualize repository and collaboration data.
- Used Celery and Redis for asynchronous background tasks, improving application responsiveness and scalability.

Blockchain-Based Healthcare Application | *Visual Studio 2022, C#.Net, Firebase*

- Built a multi-module system linking Patient, Doctor, and Pharmacy modules — covering appointment booking, prescription generation, and medical billing workflows.
- Integrated Firebase for real-time data synchronization across modules, with SHA-256 encryption ensuring secure and immutable data storage.
- Implemented aspect mining for disease prediction based on patient history, showcasing analytical problem-solving and issue resolution skills.

StackCraft Blog Platform | *Next.js, Tailwind CSS, Vercel, Typescript*

- Built and deployed a content management platform with structured data handling, dynamic content rendering, and responsive user interfaces.
- Monitored application behavior during development, identified issues through testing and debugging, and implemented fixes to improve reliability and performance.

TECHNICAL SKILLS

Languages: JavaScript, HTML/CSS

Frontend Frameworks: React.js, Bootstrap, Tailwind CSS

Databases: MySQL, MongoDB

Developer Tools: GitHub, Docker, VS Code, Visual Studio, AWS (EC2, S3), Vercel

Soft Skills: Analytical Reasoning, Client Requirement Gathering, Team Collaboration, Multitasking, Attention to Detail

EDUCATION

Savitribai Phule Pune University

Bachelor of Engineering, CGPA: 7.52

Nashik, Maharashtra

Jun 2021 – Jun 2024

K.K. Wagh Polytechnic Nashik

Diploma in Information Technology, 83.25%

Nashik, Maharashtra

Jul 2018 – May 2021

Maratha Highschool Nashik

10th SSC, 87.20%

Nashik, Maharashtra

Jun 2017 – Apr 2018
