EDUCATION

S.M.E.S. Sanghavi College of Engineering, Nashik **2021 – 2024**
B.E - Computer Engineering | CGPA - 7.52 *Nashik, Maharashtra*

K.K. Wagh Polytechnic, Nashik **2018 – 2021**
Diploma – Information Technology | 83.25% *Nashik, Maharashtra*

Maratha Highschool, Nashik **2017 – 2018**
10th SSC | 87.20% *Nashik, Maharashtra*

EXPERIENCE

Intern at Sachitech **Mar 2026 - Aug 2026**
Role – Full-Stack Developer Intern *Nashik, Maharashtra*

- Developed web applications using React, JavaScript, and REST APIs while following structured workflows and collaborating with the development team. Collaborated on an online Grocery delivery platform featuring product browsing, cart management, order processing, and responsive user workflows.

Intern at PlanetEyeFarm **Oct 2025 - Jan 2026**
Role – Blockchain Intern *Nashik, Maharashtra*

- Researching blockchain applications for agricultural data developed prototypes for recording farm data.
- Prototyping a way to link their existing satellite/IOT data to on chain records so a farm's data trail becomes verifiable.

Privan Sports Analyzer **Feb 2025 - Jul 2025**
Role – Sports Data Analyst *Nashik, Maharashtra*

- Analyzed sports game footage using sports analysis software, tagging and coding key events, player actions, movements, and game situations according to defined guidelines.
- Reviewed and validated large volumes of sports data for accuracy and consistency, correcting errors while following established workflows and quality standards for timely completion

PROJECTS

Agent Board – AI Coding Agent Command Center | React.js, TypeScript, Node.js, Electron, SQLite, Supabase

- Built a multi-engine AI coding agent command center that discovers, monitors, and manages sessions across OpenCode, Cursor, Antigravity, and Claude Code.
- Developed a Node.js/Express backend with SQLite-based agent discovery, session normalization, real-time telemetry, and non-blocking agent steering using Server-Sent Events (SSE).
- Built a cross-platform access through a responsive React dashboard, Electron desktop application, mobile LAN companion, and Supabase powered cloud synchronization. Implemented automated API and browser testing with Playwright, validating checks across functional, responsive, and integration scenarios.

OneClick Jobs – India Focused Job Aggregator | React.js, Next.js, TailwindCSS, TypeScript, Gemini AI

- Built an India-focused job discovery platform aggregating listings from Greenhouse ATS, Jobvetta, and curated fixtures, with keyword search, location filtering, and saved jobs, developed a deterministic resume-job compatibility scoring engine evaluating technical skills, experience, and work arrangement, with transparent scoring breakdowns.
- Implemented Google Gemini AI to generate personalized candidate fit summaries, strengths, growth recommendations, interview preparation talking points, and tailored cover letter starters, with a deterministic fallback.
- Implemented privacy-conscious PDF resume parsing, automated skill extraction, and automated testing using Vitest

Wordle Arena – Multiplayer Word Game Platform | React, Next.js TypeScript, PostgreSQL, Tailwind CSS, Playwright

- Built a full-stack gaming platform featuring Wordle and 1v1 multiplayer Arena with server-side game validation.
- Implemented Secure authentication using bcrypt, SHA-256 session tokens, Google OAuth/PKCE, HTTP-only cookies, OTP password reset, CAPTCHA, and rate limiting.
- Implemented a serverless multiplayer architecture with timestamp-derived match state, adaptive polling, deterministic IST-based puzzle rotation, Vercel Cron, and automated Playwright/Vitest testing.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python
Core CS Fundamental: DBMS, Operating Systems, OOP

Frameworks/Technologies: HTML5, CSS3, React.js, Node.js, REST APIs, Tailwind CSS
Databases/Cloud: MySQL, PostgreSQL, MongoDB, Redis, Neon, AWS, Supabase
Tools/AI: Git, GitHub, Docker, Playwright, Postman, VS Code, Claude Code, Codex
